Students from all over the world enrich our university institutions in Frankfurt with their talents, creativity and dedication.

It is essentially important to aid students in the challenges of everyday life and in dealing with legal and administrative requirements.

The decision to leave one's own country for studies abroad, especially on a new continent, requires strong initiative, courage and intelligence.

We primarily support students who are enrolled in a one-year preparatory study program (*Studienkolleg*) at the Goethe-University Frankfurt. The program necessitates a commitment to a fulltime schedule with frequent examinations.

Our support comprises of short term scholarships, contributions to rental payments (loan based) as well as other emergency costs, etc.
